"SAFETY FIRST" AT SEA.

LINER'S CREW "ABANDON SHIP".

Picture.

(EFFECT - SIREN).

That means abandon ship ! Ominous order,
but one which--

--sailors must be prepared--

--for at any time.

This is merely practice, aboard the liner 'Hamburg',--

--but every man jumps to--

--it as though it were the--

--real thing. Life-jackets are donned,--

--and the boats are lowered - into the placid waters of the
harbour,--

--in this instance. When a captain has a thousand
or so souls in his care,--

--he can't be too careful - hence--

--this rehearsal of "trouble at sea".

Every boat is away in record time, and not a
single casualty.

May they never have to "abandon ship" in more serious
circumstances.
