

SPEED ON THE SKIS.

SNOW SPORT ON THE COTE D'AZUR.

---

Picture.:-

In the Alps, overlooking--

--the warmy, sunny, Riviera, there's--

--snow in plenty. And here's a race on skis. The average  
incline of the twisting course--

--is about 500-yards. One in five ! At times the--

--racers attain a terrific speed, and a dangerous one.  
There's one--

--going over the top. The camera, or the ambulance, will  
pick him up later. Some--

--of these flying figures are women. Like most modern  
sporting--

--girls they are willing to take the chance of a tumble.  
By the way the altitude of this run--

--is about 1600--

--feet above sea level. Here's the finish of the race.  
And it's won by a --

--well-known snow sport, athlete, Laurentz.
