

SALMON FISHING.

SEASON'S CEREMONIAL OPENING.

---

Picture.:- At Loch Tay the gillies prepare the tackle--

--for the opening of the salmon fishing season. And the fishers brace themselves--

--for the catch. Salmon fishing is always a wet job.

Bill Robson, famous pastel artist and angler, tells a fishy story, with his hands.

Preliminaries over, the party makes for the Loch. The expedition, being organised by natives of the country, is well equipped. Nothing is forgotten. And when the boats--

--are reached, another bottle makes its appearance. Everybody drinks to the, perhaps, catch. Awfully cheery sport this salmon fishing. Another bottle or two is taken along in case of illness,--

--or thirst, and the party moves off. I am told--

--that some of them will actually fish for salmon.
