ROUGH RIDING IN

YORKS.

THE "SCOTT TRIAL".

---

Picture.:-

The Scott Reliability Trial !--

--A shocking course over the Yorkshire Moors is negotiated by 63-riders, who try to maintain an average speed of twenty miles per hour. It's not much, but it takes a lot of doing when most of the course is like this patch !

Water up to the wheel axles, and mud up to the neck !  
If mud baths make for beauty,--

--some of these riders should--

--be very good-looking. There's one standing on his pedals - perhaps more comfortable that way.

Each circuit of 17-miles--

--is checked by time-keepers, and riders sign on the dotted line--

--to prove that they have rounded the course three times. It says much for the--

--tenacity of the competitors that--

--thirty-seven completed the 51-miles, within the time allowed. The hero--

--of the mud-bath is Ken, Wilson, of Yorkshire. The prize ought to be--

--a nice soft something to sit on !
