"The first with the news" race, ! Parisian news-boys hold their annual race through the Paris streets.

And a deep depression from somewhere very cold makes it--

--all very difficult. But the lads pedal away--

--pluckily. Look at that one getting down to it !

And another ! Everybody's doing it !

A few maintain the perpendicular. But even so it's--

--hard pushing. By the time this lad arrives, the next edition--

--of his paper is out.

All the same, he's won.
