Picture:- And this train brings us to--
--Kitzbuehel, Austria. It is--
--here that the Earl of Chester, known to us--
--as the Prince of Wales, is taking a--
--holiday. The Prince's wish was to remain unphotographed,
a--
--royal request we have naturally respected. Here is a--
--class of would-be ski-ers. Yes, I am sorry about that
picture of Eve and the fall. They're all--
--beginners, but most willing to learn. The instructor
shows you --
--how to stem, put the brake on !. Difficult, but she's
sticking it out !

In the mountain train ski-ers go up--
--to the highest point for starting on a safe--
--but very exciting run down to the valley.
After a refresher, experienced ski-ers--
--make for the take-off. Miles of rushing--
--through the keen air. Dozens--
--of sudden twists and turns. The Prince of Wales is a--
--very keen snow sportsman, but on this stay his object--
--is to build up health for carrying out his strenuous
duties as a Prince.
