

NEWS IN BRIEF.

(1). Picture:- London bridges seem to be getting scrapped wholesale.

Here's old Chelsea Bridge feeling sick and sorry--  
--for itself with a nasty, cheap,--  
--wood and iron temporary structure alongside. It finds it  
difficult--  
--to be as exclusive--  
--as Chelsea should be. After re-construction,--  
--however, into a big modern--  
--affair, it should feel better,--  
--and even more artistic.

---

(2). Picture :- Another piece of London receives a wash--

--and brush-up. The Lake in St.James's Park,--  
--London, having been emptied of water is being cleaned  
with water, and a few odd scrubbing brushes. Several--  
--late unemployed are happy working--  
--in it, but the water birds, and small boys who fished  
for tiddlers,--  
--are very annoyed about it. To soothe the--  
--anger of the gulls, our cameramen raided the bread-pan  
for--  
--fodder, and they all queued--  
--up to receive their ration. Very well, behaved birds,  
gulls ! - - er - - as a rule.
