LACROSSE "FLAGS" FINAL

CAMBRIDGE UNIVERSITY THE VICTORS.

---

Picture.:- A rather unusual game - lacrosse !

This match is the final round--

--of the Senior Flag Competition. A kind of--

--lacrosse cup final, but this game is not popular enough to draw--

--eighty-thousand howling enthusiasts. The competing teams are Cambridge University, the present flag holders, and Surbiton. You may--

--possibly note that the men are nearly always in pairs. Each of these men--

--belongs to opposite--

--sides, but the job of each is--

--to watch the other, and let the rest take--

--care of themselves. After a goal is scored, the centre men face--

--the ball again, or kick off, and the other players--

--are dotted all over the field in the watching pairs.

For further information see small bills obtainable from the bar during--

--license hours. Anyway, Cambridge University retains the Senior Flag.
