(4). Picture.:- Mr. Scott Paine has--
--designed a Chinese chaser to--
--give pirates a--
--thin time. It's an armed war-ship--
--pocket size edition, which can overhaul any pirated--
--craft afloat, and in seconds make--
--it look like--
--an old kitchen cullender.

(5). Picture.) But here is to-day's special speed wonder.
This loco--
--has smashed all world's train records. The--
--driver coaxed his engine to 108--
--miles an hour. During--
--13 miles run it averaged over 100 miles per hour.
(EFFECTS).
