(4). Picture:- Mr. Scott Paine has--  
--designed a Chinese chaser to--  
--give pirates a--  
--thin time. It's an armed war-ship--  
--pocket size edition, which can overhaul any pirated--  
--craft afloat, and in seconds make--  
--it look like--  
--an old kitchen cullender.

---

(5). Picture.) But here is to-day's special speed wonder.  
This loco--  
--has smashed all world's train records. The--  
--driver coaxed his engine to 108--  
--miles an hour. During--  
--13 miles run it averaged over 100 miles per hour.  
(EFFECTS).
