

NEWS IN BRIEF.

2-585141
2-585141

(1). Picture- Who-ever said house moving was a finicky job was making heavy--

--going of a light subject. Anyway the--

--filipinos don't fuss about it. All they do is just ask--

--a few friends round for a party, and say "Oh, would you give me a--

--hand. I'm moving. I'm sure you don't mind. It's so good of you",--

--and the friends who miss the cue about having an important appointment with a--

--non existent aunt just shoulder the responsibility--

--and walk away with the five-pounds down, and the--

--k0/- a week, and all modern conveniences.

(2). Picture:- Sir Malcolm Campbell's moving proposition has more--

--kick. Sir Malcolm has thrilled the world by breaking--

--his own record of 272 miles per--

--hour, by driving at--

--277 miles per hour. But if you please, he's disappointed. He wants to do 300. Dear, dear, what a restless disposition he has to be sure. (EFFECTS).

(3). Picture:- For a restful change, take a look--

--at Miss Sutherland of Lerwick, aged 80. She's--

--spun and--

--woven Shetland shawls for longer than she can remember.

She has a sprightly sister of--

--83 years of old, who actually knitted--

--a wedding present shawl for the Duchess of Kent.
