There seems to be no end to Mr.--

--Here Belisha's activities. Here he is putting up the last chain of the pedestrian guard-rails round the dangerous road junction near Camden Town Station. To--

--cross the road passers must use the beacon crossings,--

--or jump the rails, of course. The Minister of Transport and the Mayor of St.Pancras make the first crossing--

--between the barriers.

A further contribution to the--

--solution of the road-safety problem. The--

--depressed people who are looking on are the--

--last remnant of Camden Town's persistent jay-walkers.
