CIRCUS DAYS AGAIN.

PREPARING FOR "THE ROAD".

Picture. :-

Circus performers get ready for the road. show.
the pretty girls refresh their frocks--
--and fal-de-lals, and performing ponies get a manicure and--
--a general look over before the show--
--commences. New laughs and make-ups are discovered by the
clowns, and a group of brilliant--
--girls set a new gold standard, with skins and hearts,--(bless--
--'em) of gold. The elephants--
--walk in two by two, and lovely equestriennes--
--prepare to win the eternal love and admiration
--of Britain's innocent youth. Stuffy London lodgings
are left behind,--
--and the alarm clock is replaced by cock--
--crows and morning sun shining through a caravan's--
--open window. Great stuff this circus life !
