

NEWS IN BRIEF.

(1). Picture.:- 45-000 tons of good ship stuck in the mud. That--
--was the plight of the magnificent 'AQUITANIA' before the
tide pushed, and a flotilla--
--of tugs pulled. For 26-hours the great vessel had been held
fast on a mud-bank in Southampton Water. It--
--wasn't so much the danger, but the loss of dignity. The--
--indignity was caused by a snifter blowing from the South West--
--at fifty miles an hour. However, it's all--
--over now. She's in Southampton Dock safe and sound.
Women-like, prepared--
--to meet her next daring adventure with relish. Rather in--

(2). --this spirit. These daring riders of animated steel steeds
are members of the Royal Signals Corps. A number of them--
--picked the safer course--
--and sit horses. Hence the phrase 'horse sense'!
This display is yet another --
--prelude to the Royal Jubilee Tournament, when these amazing--
--feats will positively--
--be performed twice nightly, - no, daily - - before an admiring
public.

Many new and original thrills are being introduced
for your approbation.

The price of admission is published--

--in our next issue of the Dodeo Chimes, obtainable at, oh,
sorry !
