When in Paris, if you want to know the time, ask a gendarme beaver, and if--

--you want to know other details--

--of the Gay City, ask Suzette the Gendarmeuse, but step carefully - - the new Parisian Policewomen --

--are very attractive, but a little--

--too arresting. So if you have the--

--inclination to know the time, I again recommend that you still play safe, and ask a policeman.
