(4). Picture:- Cramond, near Edinburgh, is a quiet little place.
After this--

--picture it may get over crowded. Healthy beauty girls
have descended upon--

--it, and that's apt to provide an added attraction. Every--

--morning they do their chores, clean up the boat, splice--

--the main brace, if necessary, hitch up any loose gear, and
generally--

--make themselves useful and pleasant. That--

--done, they go ashore, and have fun--

--on the beach, giving the impression that they know what
sailors are. Leap-frog, cart-wheels, chinese bends, it's
all the same to these lithe lithesome loose-limbed--

--lassies. Ah ! The bossum must have blown his whistle,
and cried "Show a leg!"

Don't girls have fun ?

(5). Picture:- Here is an English hockey team at Berlin--

--running out to play a representative team of German girls.
An international--

--sporting event designed--

--principally to improve relations between sports women
of different countries. (EFFECTS).

(EFFECTS - 5 SHOTS).

The result of a spirited match is England-six/ goals
Germany four.
