(3-) Picture:-

Motor-cyclists of the West--

--Riding, members of the Ilkley Club, start on the--

--muddiest, muckiest, trials ever--

--run. Some parts of the course are just rivers of slush. The sort of stuff which sticks closer than a brother. 40 competitors are trying this sort of thing. Some for the first time - - many for the last, probably !

That one for instance ! There should be a lot--

--of secondhand bikes slightly shop soiled--

--going cheap after that show. This trial is specially arranged to take place in dirty--

--weather. Otherwise it would be too easy I suppose. He's gone from petrol to steam power.

The audience enjoys--

--it immensely. The sportsmen on the bikes say they do, but you know--

--what Solomon said. The first prize is worth fifty guineas. It's not enough !

---
