LEVIATHAN OF THE

SEAS.

NORMANDIE LEAVES ST. NAZAIRE.

Picture.:-

The world's up to the moment largest liner. The 'Normandie' leaves dock at St. Nazaire--
--to commence her trials. On her decks are a thousand--
--workmen. They are the beauty--
--experts going to put the finishing touches to her--
--79-000 tons before she receives--
--her first passengers. Her maiden voyage to New--
--York is almost due. Will she lower the Atlantic record,
and--
by how much? These trials are chiefly for estimating
her--
--speed. Her engines develop 160,000 horse power.

The world's biggest ship - - until when, I wonder !
