BIG FIRE IN LONDON.
WHOLE STREET INVOLVED.

Picture.:- Kilburn had a fire thrill to-day. In--
--the early morning dwellers in Salusbury Road were
evacuated from their houses. An hour--
--after that the place became practically--
--an avenue of fire. Seven houses--
--and the premises of five--
--businesses have been burnt out, or badly damaged.
Valuable machinery plant has been utterly destroyed--
--and many people have been thrown out--
--of work until temporary arrangements for their employment
can--
--be completed. That motor-car gives--
--a good idea of the general mess. Children were held
up from--
--getting to school. They thought it was an awful rag.
But--
-the owners and/or insurance companies--
--have other views. The amount--
--involved is estimated at about one-hundred-thousand
pounds.
