KIEL REGATTA.

GERMAN NAVY WEEK.

Picture.:- Kiel Navy Week has a happier significance this year,
for--

--it takes place almost parallel with the naval pact arrangement
--between Britain and Germany. A peace move given the--
--greatest importance by the world's press.

It is certain that everyone wishes success to any--
--agreement which makes for a permanent European peace, always--
--providing, of course, that it squares with the--
--much overworked phrase "peace with honour." Anyway, here is--
--the German Navy disporting itself at Kiel Harbour, under the
admiral--
--eyes of the people who--
--pay for it. The enthusiasm of the crews and--
--their supporters in this rowing contest is very marked.

(EFFECTS - 8 SHOTS).

After a very exciting race, somebody wins,--
--and gets congratulated, Somebody else doesn't, and
doesn't, but it's a good race !
