(4). Picture. At Muirfield, Arthur Perry puts down his last putt and wins--
--the Open Golf Championship. Thus does an outside chance delight the golfing fans, bag the--
--coveted cup for his sideboard, and shock the experts. Well, they have got a year to explain that away.

(5). Picture.:- At Hornsey Baths swimmers find a different round game. A sort of see--
--and be seen from all angles. It's a giddy business, but--
--it does teach a girl to hang on when there's--
--danger in letting go. And in these fast moving days, well, I mean to say.

(6). Picture.:- Scarborough elects her Rose Queen for--
--1935. Miss Kathleen Nicholson tastes all the ceremonial joys of her royal position. Kathleen looks every inch a queen, and she's pretty enough to compete with the roses. Her maids-in-waiting are not so bad either in those 'come-hither' hats. Everybody's happy, except the small boy--
--who would rather have a stick of rock.
