NEWS IN BRIEF.

(CONT).

Picture.:- A fire in Trafalgar Square. It broke out when the Square--

--was busiest with morning traffic. 25 engines were--

--on the spot in seconds. 600--

--people from the threatened--

--buildings joined the thousands below, and made a jam--

--of people and traffic which--

--gave a real excuse for being--

--late at the office. No casualties. Damage plenty.

Picture.:- The Richmond Dog Show enters upon its umpteenth annual success. Dalmatians are--

--being spotted as present day favourites, while--

--samoyeds, or white chows, which is it, are receiving a lot of attention, too much, he thinks! Salukis--

--still maintain their aloof poise. But the --

--British bulldog is bowled over--

--by the hot weather. All he wants is a secure peace.
