Picture:- CHINA : The country which Japan is anxious to make behave as Japan wants. The centuries--

--old wall is a jumping off place for the latest Nipponese peace by the--

--sword movement. Aeroplanes have made the wall useless as a-

--defence bulwark. The Chinese are evacuating--

--Tientsin in case the Japanese get really--

--warlike. Troops are--

--massing to protect Japanese interests. What happens to the Chinese

--interests is rather difficult to get at.

FRANCE '. Paris police have a--

--puzzle to solve. This--

--villa was destroyed by a mysterious explosion. The owner--

--an attractive woman was killed in the disaster.

Was it an accident or a--

--a crime ? Or she she just look for a gas-leak--

--with a lighted match. A nasty affair however it happened.

DEAUVILLE stages yet another beauty contest, for which -

--some most charming young men enter. A really delightful exhibition of male grace and movement. Urcha ! The gentlemen are in fact--

--the flower of Parisian youth. I needn't specify what flower. Judging is-

--done by a Committee of critical citizens. I don't know who delivers the sentence.

The competition was a--

--a great success. This dazzling blonde was given first-a prize, and the judges were given a vote of confidence.
