A. Picture :- In Bavaria they have a rather delightful way of celebrating their annual flower festival.

(EFFECTS TO END OF STORY).

B. Picture :- AMERICA ! Terrific cloudbursts, followed by raging floods, brought to New York State widespread misery and desolation.

The force of the rushing waters made escape by car impossible, and many a valuable automobile is now utterly useless.

Thousands of people were driven from their homes as the torrents inundated wide areas, rendering the houses uninhabitable.

The storm smashed up bridges like matchwood, so that travellers just had to stay where they were. Over a dozen people were drowned !

Very few of the people's pets survived the catastrophe, which has turned a thousand square miles into a land of desolation.
