NEWS IN BRIEF.

(A). Picture:- At Newhey, near Rochdale, they want more shale for brick-making. Here's

how they get it in a hurry !

(EFFECTS OVER ENTIRE SHOT).

They used to blow the shale up, but it cost a lot in broken windows, so now it is blown down - - it's cheaper that way.

(B). Picture:-

Bramley, Leeds, snaps its fingers at Mrs. Grundy in the name

of charity. Lady Godiva, in real life, Miss Lily

Storey, is to ride through the streets covered in

smiles, not to mention a wig, and a costume not worth mentioning ! Many said that Miss Storey would shirk the ride at the last moment, and wouldn't

dare to show her face. As her face doesn't happen to be

the chief attraction of the day, and, as collections are in aid of the Leeds Infirmary, Miss

Storey undresses for the part, and proceeds to

ride through the streets almost 'au naturel', as the French might say. Her hair seems to be worrying her ! But as she has

nothing else to worry about, the collections for the Infirmary have

a rattling good time !
