RECORD FLIGHT ATTEMPT.

CAMPBELL BLACK'S LATEST EFFORT.

---

Picture.:- Mr. Campbell Black's special 'plane for his record-smashing

attempt, is named 'Boomerang', and

it's all ready to go ! Mrs. Black (Florence Desmond as was),

and McArthur, the relief pilot, stand by,

while Lady Fielding prepares to christen the machine with full

honours. Two bottles of the best. One to waste on the 'plane, and one to wish

the pilot good flying and safe landings. A sentiment which Mrs. Black utters

more in her heart than with her protean voice. That

over it's ho for the Cape ! But - - the 'Boomerang' fell short of its mark. Reaching Cairo, the aviator

decided that the engine required an

overhaul, so the projected record-smashing flight is

for the present over. So all we can

do is to wish Mr.

Campbell Black better luck

next time !
