

MAURETANIA DEMOLITION.

"FELL" WORK AT ROSYTH.

---

Picture.:-

Rapidly the 'Mauretania', once queen of the ocean, is becoming a thing of the past. Sentimentally we follow her passing. We like to dwell on what she was, and can almost squeeze a tear, when we see her being turned into scrap metal.

The true facts of the matter are that she was an old out-of-date vessel, and has been superseded by many ships, better, faster, and safer, which is all to the travelling public's good. So let's dry our eyes and see her last bow. (EFFECTS).

For the sob-sisters, we will say "Good-bye, 'Mauretania' !" "You have been a good girl, but all good things come to an end."
