Picture.:- All that talk about Brighton being a fast town is true after all, and here is the proof. The Brighton & Hove Motor Club's annual trials introduce a number of Britain's fastest men and women, who are allowed to go the limit, and it isn't thirty miles per hour, either. Among the starters in the ladies' race are Mrs. K. Petre, Mrs. Roy Eccles, Miss Joan Weakes. Speeds up to 100-miles-per-hour were attained on Brighton front, and that's fast work even for Brighton Front.

The runner up of the ladies race is Miss Barbafa Skinner; Miss M. Dickson winning the event.

And now for a quiet walk at Musselburg. When all this dancing has worked itself out of the system, the Fishermen's Walk will take place, just as it did in the 15th century when the Dutch fisher settlers arrived. Women are the chief feature of the Fishermen's Walk. On this day Lady Hope presents the Fishermen's Society with a new banner, the old one having been excused from parades on account of senility.
