

2-88P141

THE  
GENERAL ELECTION

In pursuance of its policy of not  
favouring any particular Party,  
UNIVERSAL TALKING NEWS now presents  
SIR JOHN SIMON.  
(National Liberal Leader).

---

If you do not vote for the National Government, what  
sort of government is it that you wish to be established  
in this country ?

The only possible alternative is a government drawn  
from the remnant of the Socialist Party, the very people  
who, four years ago, left this country in such a mess.

They have neither the men, nor the experience, nor the  
policy to undertake such a task.

Voting for them means weakening the foundation of security  
upon which all advance depends.

Ladies and gentlemen ! You have been receiving a great  
deal of advice, as to how you should vote, and no doubt  
you will attend to all of it. But remember this !  
While some people have only been talking, the Government  
has been working.

Therefore let us tell the National Government to carry  
on with its job.

---
