(D) Picture.:- More preparations for the Chelsea Arts Ball. Modern Chelsea has gone all ancient this time. Egypt is the inspiration, with clinging Cleopatra as the central figure. She is fanned by a Eunuch, but objects to the draught, or the Eunuch. Oh look at Mr. Tut-an-Kar-men. As usual, all is very elaborate, and, oh I say !

And on New Year's Eve, after exhibiting their work, the students will make

an Egyptian night of it - - probably ancent on the gyp !

(E) Picture.:- Friendly hand-clasps between nations. The Port of Hamburg receives a visit from the Swedish Navy's most modern aircraft carrier, the Gotland. The Admiral of the Port goes aboard the Swedish war-ship and welcomes her commander and officers with dignified ceremony, and, one hopes, with full sincerity. The crew of the 'Gotland' will be officially entertained in the port before returning to their country for New Year's Leave.
