

PUN IN THE SNOW

JOYS OF TOBOGGANING.

---

Picture.

Old Man Frost has done some good in providing opportunity for amusement at Buxton. The severe winter weather has been

the means of upsetting many methods of travel. But a few upsets here don't worry anybody. Enthusiasts come from miles around to get a cold

in the Buxton Temple fields. Many of the sleighs are by famous

makers, and quite a lot are

home products which once contained soap. A new idea - - surf riding in the snow.

The course is a trifle humpy, occasionally, but nobody worries about a

roll in the snow. In fact they say

they like it. I don't think snow is sympathetic. There's a lovely mixed bunch on the

slippery slope. Hello, somebody has blundered. We will call them a mixed

bag after that. But they just sort themselves out distribute the pieces equally, and mutually apply the embrocation where necessary and where possible.
