

NEW FILM STUDIOS
SOUND CITY EXTENSIONS.

Picture.:-

The new UNIVERSAL studios are being built at Sound City. Claude Hulbert and Noah Beery unveil the foundation plate. I see Noah has been given the very English title of 'Esquire'. But I am sure his British work will merit it.

(NATURAL SOUND)

After the ceremony, the visitors take a walk round the older studios, from which you have probably seen many pictures already. This set is part of a film to be called "The Crimson Circle", from a story by the late Edgar Wallace. We wish progressive Sound City all success !
