WINTER'S ICY MANTLE.

HEAVY SNOW-FALLS.

---

Picture.:-

This is Hampstead Heath - - not on August Bank Holiday. Still, it

gives some people fun. Look at that ! Three parties and one ball, all at the same time and place. The whole of Britain has now had its fall of snow, and one person had another fall while attempting to ski.

Manchester has had snow, as a change from rain. Most unusual ! Luckily it doesn't remain in Manchester

for long. But who could

blame snow for that ? Salt is thrown down to melt it away, so you may

take this Manchester story with a pinch of salt, without offending

anybody. The beauty of snow is something which drivers and nudists don't appreciate. But it takes

more than snow to give Manchester bobbies cold feet!
