the scene into a picture of beauty, and charm ! Gerr-away !

(E) Picture.:- It's rather wet and cold here
too in places. This is an ice-
cream show at the Crystal Palace. Experts
view the latest machines for making the confection,
and taste
the latest flavours for making little Willie ill. Last
year four-hundred million
gallons of ice-cream were sold. I think my
kid sister eat most of it, and I paid.

You can see he's musical, can't you, and here's
the theme song. "You're very cold to me, Gherie, but
I'm all hot for you."
