

## THE WAR

### RED CROSS UNIT BOMBED.

---

Picture.:- The Abyssinian Emperor, on being asked "How do we

know the Italians are bombing Red Cross Hospitals?" loaned our operator an aeroplane and flew him to see for himself. Here are Doctors Holm, Joelson (of the Swedish red-cross), Norup, and one who was badly wounded, Lundgrin.

The ambulance car itself was riddled with bullets, and bomb fragments, and at that door sat Dr. Lindstrom, when a bomb tore through, and killed him and others. We also show you an Italian note, alleged to have been dropped which says "You have beheaded Italian prisoners, You will now receive what you deserve." Dr. Junod, International Red Cross official, from Geneva, is now making a report on these incidents.
