

ICE-SKATING IN YORKSHIRE
CHAMPIONSHIP THRILLS.

10 B P. 15. 21
21 07 15

Picture: The Yorkshire Skating Championship. Shivering
crowds see--

--the previous champion and would-be champs, race for the--
--cup. The present holder is C. Carnes of Leeds and he
gives the ^{new} holder favourite--
--E. Richardson, of Selby, a fine fast contest.

EFFECTS.

EFFECTS.

But E. Richardson wins the mile in record time --
--of three minutes 15 and two-third seconds and gets --
--the 'cold' Cup. Well here's how, and now for a spot of--
--heat. That's better! This is a fine frosty day--
--for a hot demonstration of how to--
--put out a fire. In this--
--weather, lots of people worry about how to keep one--
--going, but this is different.

The new invention is a flame suffocator.

A chemical foam is sprayed on the--
--burning material, petrol in this case, the fire--
--is put out and--
--the chilled onlookers go to find another one.
