

DARE-DEVIL OF THE AIR

THRILLING SURF BOARD "STUNT"

---

Picture:- If you have lots of courage, and money, and no better

way to use

either, here's a new game. A surf-board hauled by a motor-boat

is followed by a glider. The dare-devil of the act grabs the glider, and takes to the air.

The extra weight of

the second man makes

the glider sway dangerously, but what's another thrill amongst so many. The acrobat then attempts

to change places

with the glider pilot, and the result is

a nose dive. They cut loose,

and no harm is done. They just

put it right side up, and start

all over again, ready for the next

jump. (EFFECTS)

(EFFECTS) A close thing, but he does it, and breathes again. So does his Insurance Company.

I wonder if he favours plain oak with brass handles, or just plain oak.
