MASKS.

Making masks in the likeness of famous men of our time, is the hobby of a sculptor and journalist in Rome --- Bruno Morini. He has a sense of humour, and a fanciful imagination. His favourite effort is this little scene between President Eisenhower and Russia's Mr Malenkov --- in which they both produce the dreaded Hydrogen Bomb

But a cameraman who bears a remarkable resemblance to Truman records the event that the whole world is waiting for --- the transformation of H - Bombs into doves of peace.

*Ernie cameraman*  
*Truman: Perhaps they'll ask him to do his act at the Four Power Conference*  
*the great thing is that they all look cheerful!*
