FOUR-POWER CONFERENCE.

SOCCER AND
RUSSIAS
S.B.

2/2/54

One immediate ~~of~~ result of the Four-Power Conference is that for the first time since the Russians occupied part of Berlin, cameramen have been permitted to enter their eastern zone and take pictures without interference..... although vehicles crossing the zone border by the Brandenburg Gate, must all be checked.

Universal News cameraman outside the Russian Embassy was allowed to shoot the Red Army ~~guard~~ changing of the Guard: but while he did so, he was under observation by two soldiers and a detective on the balcony.

They moved away when he trained the camera on them.

And the Guard ^{was well on} ~~was well on~~ the alert as Mr Molotov left for another meeting of the Big Four.
