

VIAREGGIO CARNIVAL.

26/2/54.

But for a carnival of outstanding beauty --- come to sunny Italy. Hundreds of artists have worked for many months, to produce the floats and figures; and the result is a show that is really magnificent. With rolling eyes that are larger than life, ~~and~~ and everything made of paper, even to the mouths that talk so convincingly. Yes --- if there's an Oscar for this year's Carnivals --- you'll have a job to beat this one in Viareggio.
