25/5/54.

~~In spite of~~ a spring that has been almost as ~~cold~~ *chilly* and gloomy as winter, somehow the experts have been able to produce the usual profusion of lovely blooms, for the annual Flower Show at Chelsea.

As usual --- the private view day before the show was opened to the public, attracted several members of the Royal Family. The Duchess of Kent arrived with her daughter, Princess Alexandra, ~~and~~ Queen Elizabeth the Queen Mother was there with Princess Margaret. They made an extensive tour of the Flower Beds and Rock Gardens, and of the exhibits in the marquees.
