

Holland - Siamese Twins go home

Holland: It's a great day for the hospital at Leeuwarden, The eight-month old Siamese Twins (who were separated a few weeks ago) are going home... And a happy Mother, Mrs de Vries, arrives to collect them...

With loving care, the Nurses had prepared ~~the twin girls, Folke and Tette~~ <sup>THE FIRST</sup> SIAMESE TWINS TO BE SUCCESSFULLY SEPARATED - ~~Tette~~, for the journey - then they proudly turned out in force, to say good-bye, to their two important little patients. <sup>23</sup>/<sub>7</sub> ~~XXXXXXXXXXXXXXXXXXXX~~

~~XXXXXXXXXXXXXXXXXXXX~~

The parents have five other children - and outside their ~~home~~ home - ~~XXXXXXXXXXXXXXXXXXXX~~ friends and neighbours had gathered to see the tiny twins..... The youngsters, too, had their peep - for one day, two little girls will join them at play, as normal children; and their happy laughter will be a tribute to a triumph of medical skill... <sup>18</sup>/<sub>7</sub>
