

Zoo Babies Take a Bow.

Family scene at the Amsterdam Zoo - a proud Mother Hippotamus taking her baby for that morning dip. And it holds no terrors for baby hippo, as she was born under water and is often fed there by mother - with an occasional break for air (BRING UP)

And there is the fine 100 lb. Baby (BRING UP)

And at the London Zoo - our old friend and entertainer - the Sea Lion - coaxes her 17 day-old child to the water - to make his first public appearance (BRING UP)

After a short swim, Tiny (that's Mother's name) thinks Junior's had enough publicity for one day (BRING UP)

But Junior loves that bath, although the sides are rather slippery. Anyway it's a good thing mum's not far away. (BRING UP)
