

SABRE JETS.

10/9/54.

In Melbourne, Victoria, Prime Minister Menzies handed over to the Air Minister, the first Sabre Jet Fighter built in Australia. And here it goes --- flown at speed by Chief Test Pilot, Wing-Commander Cumming..... an American fuselage, with a British jet engine.

HELICOPTER.

And here at Windsor Locks, Connecticut, is a helicopter setting out to establish a new speed record. It's also the first helicopter with a retractable undercarriage. She's not so fast by jet standards; but the timing device recorded more than a hundred and fifty miles an hour.

ATOM REACTOR.

This is the world's most powerful atomic testing reactor --- at Idaho Falls, in America..... where the scientists are working on the use of atomic power in peacetime. It seems a toss-up which we'll get first --- the atom power that will change the world into a heaven on earth, or the bomb that'll just change it.

GERMAN POLICE SHOW.

~~A hundred thousand~~ A hundred thousand citizens of Berlin gathered in the Olympic Stadium, to watch the annual show put on by the West Berlin Police. After an ^{impressive} ~~efficient~~ march past, the men from the beat gave an efficient display of rhythm.

And finished up, with a spectacular display on motorcycles.

SARACEN TOURNAMENT.

In Arezzo, in Italy, after a lapse of eight centuries, they have revived the Tournament ~~of the tournament~~ of the Saracens --- with Crusaders in armour, doing doughty deeds, against an automatic king of the Saracens armed with a shield, a whip and three balls. Twice nightly --- The Pawnbroker's Revenge.

PRISONERS FROM INDO-CHINA.

Scenes reminiscent of Korea were repeated in the Exchange Camp of Viet-Tri, when French prisoners of war began their journey home from Indo-China. Among the many who were welcomed back by General Cogne, the French Commander, was the very gallant hero of the siege of Dien Bien Phu --- General de Castries.
