

This was the opening game of the World Series in the American baseball season --- Cleveland Indians versus the New York Giants..... and the captain of the Little League Champions opened it. And here's an all-round view of the match, which ended in a five-to-three victory for the Giants. But before we leave them --- here's a ~~sixth~~ Cleveland player hitting what looks like a home run..... only to be caught --- by the biggest catch since Joe DiMaggio caught Marilyn Monroe.

KOREA PROTEST.

Demonstration --- in Seoul. Twenty-five thousand students in this capital of South Korea, parade in mass protest. When the Communists from North Korea invaded the south --- America led the defending armies of the free world in defence. Now the G.I.'s are being withdrawn --- and Seoul doesn't want them to go.

MOUNT PLEASANT FIRE.

All employees marched out safely, when fire broke out at Mount Pleasant in Clerkenwell --- headquarters of the General Post Office. Fire Brigade headquarters sent out a general mobilisation call --- and salvage men had a big job, protecting the world's correspondence from water. About three hours after the fire started, it was ~~reported~~ reported to be under control.

BRIGHTON HAIRDRESSING.

B The seaside town of Brighton established itself as ruler of the permanent waves, when the Hairdressing Competition for the World Championship was held at the Royal Pavilion Estate. These are some of the entries in the Ladies' events, which took place in the Dome. For some reason, the men's events took place in the Corn Exchange. Here are some examples of what the champions made of the crowning glory, in the first World-Cup Championship ever held in Britain.

~~XXXXXXXXXXXXXXXXXXXX~~ MORE MITHRAS FINDS.

Following the excitement of the first discovery of the ancient Roman Temple of Mithras, further digging has uncovered these other treasures in the soil of the City of London. They are the head of Serapis, the ancient ~~and~~ Egyptian corn god, a statuette of Hermes --- and a huge hand which probably came from a fifteen-foot statue of Mithras himself. The discoveries are said to be the most important ever made in Britain.
