

Touring Europe is the lady who is claimed to be the most perfect housewife in the United States.... Mrs Wanda Jennings, holder of the title of Mrs America 1954. Here she is, opening a cookery school in Hamburg. And, in case you couldn't guess, the inaugural ceremony was the cooking of ~~■~~ Hamburgers. Having cooked them ---she handed them round. And they seem to be all right. So she has a bit, too.

ST CATHERINE'S

St Catherine's Day in Paris, ~~this year~~ was notable for its hats with a theme of domestic science. It is the day celebrated by unmarried employees of the fashion houses. The bachelor thinks that adding an egg will make them rich. This celebration is for spinsters who admit that they are over twenty-five years old. There is a legend that when any girl admits she is over thirty, the egg turns into a diamond.

FRIENDLY HORSES.

Three sisters in a farming family in the province of Groningen in Holland, have ~~some~~ ^{some} horses who are trained to live like members of the family. And that included eating at the table ~~just like~~ almost better than the sisters do themselves --- look, no ~~hands~~ hands!

When sitting down, they say that from the back view it looks just like grandma. But there's no doubt the sisters 'll have to buy a tractor, if ever they want to get married.

NATO PILOTS.

One of the big contributions to western defence, is made at the flying schools of the Royal Canadian Air Force. Ground ~~lectures~~ lectures, and familiarisation with the flying of the most up-to-date jet-planes, is given to prospective aircrews of the countries of the North Atlantic Treaty Organisation. This is passing-out a day in one of the prairie training establishments in Manitoba.

And they fly in perfect formation.
