

BRUSSELS RIOT.

29/3/55.

In Brussels a crowd of several thousands, put on a x demonstration against the Government's proposal to reduce the subsidy to Roman Catholic Schools. This --- despite the proclamation of a state of emergency;..... and mounted police were called out to deal with the demonstrators. Dealing with demonstrators in these parts, usually consists of doling out cracks on the cranium; and the police distributed a few samples among the supporters of learning --- just to educate them. /
