

These are the first newsreel pictures to be shown in Britain since the revolt in the Argentine overthrew the Government of President Peron --- and turned the man who had for eleven years been the all-powerful dictator into a fugitive. In the capital city of Buenos Aires, all was ~~quiet and~~ orderly as the reins of Government were taken over by a military junta; and the junta handed over the authority of Peron to the rebels. General Lonardi was installed as the new Provisional President. ^{AND} Thus ended the régime of yet one more tyrant-dictator; ~~and~~ The people were free ^{to say what they thought, about the man they had for so long been forced to cheer.} ~~to say what they thought, about the man they had for so long been forced to cheer.~~
