

TELE-SEAT.

6/3/56.

At a ski-ing school for children in the French Alps , the instructors ~~ix~~ have made a gadget from a stick and a ball for towing the young novices up to the top of the slope. But they forgot the human element.

However --- most of the kids soon got the hang of the idea and found ~~the~~ way up the mountainside.

Then all they had to do was come down.
