

C-14P221

(8). TITLE. :- LINK OF NATIONS.

Picture. :- The new tunnel is surely a token of the belief that friendship between the two countries --

--will endure for ever. Two twelve-year-old girls break the ribbon at the --

--international boundary, seventy-five feet below ground. The tunnel --

--runs right under the river at this point.

This broadens the possibility of some people living in U.S.A. and working in Canada, and vice versa.

It's a strange idea, but it's done already at other points. This is the Canadian end of the tube. Let's take a run through it. That bus is just going!

The tunnel is just about a mile long and has taken two-and-a-half years to build. A thousand vehicles an hour -

--will be able to pass in both directions comfortably.

There's no doubt about its usefulness ; and may it serve as a true link between the two nations.
